

DENVER SCHOUW

Cape Town, 7800, South Africa 083 265 8308 dschouw@gmail.com

PROFESSIONAL SUMMARY

Experienced Lead Software Engineer with a strong technical background and a pragmatic, enterprising approach. Expertise in Software Development, Analysis, architecture design, testing and implementation of software systems. Adaptable and effective under pressure, with highly developed analytical skills and a quick learning ability. Excellent relationships with management, clients, and colleagues based on trust and respect.

EXPERIENCE

November 2020 - Current

Lead Software Engineer

Confluence | Cape Town, South Africa

- Developed efficient software solutions to meet client requirements that enabled the Fixed Income Analyst Department to scale from generating thousands of fixed income asset pricing and analytics to handling hundreds of thousands of assets efficiently.
- Configured virtual machines, containers, and serverless functions as part of overall application architecture.
- Utilized messaging queues like RabbitMQ or Kafka for asynchronous communication between services.
- Optimized application performance through profiling tools, refactoring code, and implementing caching strategies where necessary
- Mentored junior team members in coding techniques, algorithms, and problem-solving strategies
- Implemented enhancements and bug fixes for existing software applications

November 2013 - October 2020

Senior Software Development Analyst

Achievement Awards Group | Cape Town, South Africa

- Enhanced loyalty system, scaling it from 100,000 to 1 million users while significantly improving system performance.
- Built relational logical data models and physical schema designs for Loyalty Systems
- Completed complex analyses and problem-solving for supported systems
- Facilitated knowledge sharing sessions within team for continuous improvement of skills
- Collaborated with development teams to resolve issues and improve overall product functionality.

August 2006 - October 2013

System Analyst Developer

Face Technologies | Cape Town, South Africa

- Gathered software requirements and built test plans.
- Created systems models, specifications, diagrams and charts to provide direction to system developers.
- Developed software applications to meet client needs and improve overall user experience.

April 1999 - December 2003
Senior Developer
Face Technologies | Cape Town, South Africa

April 1997 - March 1999
